DETAILED ACTION

Reissue Applications

Any changes to the patent drawings must be made by way of a new sheet of drawings with the amended figures identified as **amended** with added figures identified as '**new**' for each sheet change submitted in compliance with 37 cfr 1.84, 37 cfr 1.121(b)(6), and 37 cfr 1.121(b)(3)(I). See MPEP 1453. Correction is required.

Applicant is reminded of the continuing obligation under 37 CFR 1.56 to timely apprise the Office of any litigation information, or other prior or concurrent proceeding, involving Patent No. 5,528,482, which is material to patentability of the claims under consideration in this reissue application. This obligation rests with each individual associated with the filing and prosecution of this application for reissue. See MPEP §§ 1404, 1442.01 and 1442.04.

This application is objected to under 37 CFR 1.172(a) as the assignee has not established its ownership interest in the patent for which reissue is being requested. An assignee must establish its ownership interest in order to support the consent to a reissue application required by 37 CFR 1.172(a). The assignee's ownership interest is established by:

(a) filing in the reissue application evidence of a chain of title from the original owner to the assignee, or

(b) specifying in the record of the reissue application where such evidence is recorded in the Office (e.g., reel and frame number, etc.).

The submission with respect to (a) and (b) to establish ownership must be signed by a

Art Unit: 2838

party authorized to act on behalf of the assignee. See MPEP § 1410.01.

An appropriate paper satisfying the requirements of 37 CFR 3.73 must be submitted in reply to this Office action.

I.e., it is uncertain whether the assignee has properly established their ownership interest in the patent. Patent Office records indicate that the reel and frame numbers provided on the assent of assignee and the 3.73(b) statement do not relate to patent 5,528,482. Hence, the assignee does not appear to have complied with 37 CFR 3.73(b) because they have not identified where the evidence of a chain of title from the original owner to the assignee is recorded in the Office.

Office records indicate that ownership of the patent is to AT&T IPM Corp., not Lucent Technologies, Inc. (Note, see additionally MPEP 324).

1. Claims 1-60 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the declaration is set forth in the discussion above in this Office action.

Allowable Subject Matter

2. Claims 1-60 would be allowable if given a proper declaration.
3. As allowable subject matter has been indicated, applicant's response must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 C.F.R. § 1.111(b) and section 707.07(a) of the M.P.E.P.
